OFFICIAL DOCUMENTATION

MentorBee Eduverse

Class Link Management & WhatsApp Broadcast System

Document Type: Complete Operations & User Manual

Version: 2.0 (Production Release)

Audience: Super Admin, Class Coordinators & Mentors

📖 About This Manual

This document provides a comprehensive, step-by-step functional guide for both **Admin & Class Coordinators** and **Staff / Mentors** of MentorBee Eduverse. It covers authentication, scheduling with Smart Zoom Auto-Parsing, 1-click WhatsApp message generation, WebSocket real-time synchronization, batch management, and the security audit trail.

📑 Table of Contents

1. System Architecture & Workflow	Section 1
2. Access Control & Credentials Matrix	Section 2
3. Admin & Coordinator Portal (Complete Breakdown)	Section 3
3.1 Sessions Management & Smart Zoom AI Auto-Fill	Section 3.1
3.2 Batch Catalog & Syllabus Configuration	Section 3.2
3.3 Security & Access Audit Trail (Super Admin)	Section 3.3
4. Mentor & Staff Portal (Complete Breakdown)	Section 4
4.1 Mobile & Desktop Login Workflow	Section 4.1
4.2 CBSE vs STATE Syllabus Switcher & Grade Filtering	Section 4.2
4.3 1-Click WhatsApp Broadcast Copy & Zoom Meeting Launch	Section 4.3
4.4 Real-Time Background Synchronization Engine	Section 4.4
5. Standard WhatsApp Broadcast Template Specifications	Section 5
6. Operational FAQs & Troubleshooting Guide	Section 6

📌 1. System Architecture & Workflow

MentorBee Class Link Management System is engineered to eliminate manual link errors, delays, and WhatsApp formatting inconsistencies across 106+ educational batches spanning **8th, 9th, 10th, 11th**

Science/Commerce, and 12th Science/Commerce (both State Syllabus and CBSE).

High-Speed Scheduling

Coordinators paste raw WhatsApp meeting invites. The smart regex engine extracts the Zoom URL, Meeting ID, and Passcode in milliseconds.

Real-Time WebSocket Sync

Newly scheduled classes or link modifications reflect instantly across all active mentor dashboards without manual refresh.

Mobile-First Mentor UI

Clean, high-contrast touch interface with 1-click WhatsApp message copying and direct Zoom deep-linking.

Security & Full Audit Trail

Every login, message copy, link copy, and Zoom launch is timestamped with staff name, class scope, and IP address.

End-to-End Operational Lifecycle

Step 1: Faculty creates Zoom meeting > **Step 2:** Coordinator pastes invite text into Admin Portal > **Step 3:** System parses details and publishes session > **Step 4:** WebSocket pushes update to Mentor Portals > **Step 5:** Mentor taps "Copy Message" and dispatches to WhatsApp student groups.

👥 2. User Roles & Credentials Reference Matrix

A. Admin & Class Coordinator Accounts (`/admin`)

Access the administrative dashboard to schedule classes, manage batches, and monitor access.

NAME	ROLE	LOGIN EMAIL	DEFAULT PASSWORD	ASSIGNED SCOPE
Super Admin	SUPER ADMIN	admin@mentorbee.com	ADMINPASSWORD@123	ALL Classes & Audit Logs
ABIN M M	COORDINATOR	abin@mentorbee.com	ABINPASSWORD@8TH	8th Class (State & CBSE)
ABHIJITH M B	COORDINATOR	abhijith@mentorbee.com	ABHIJITHPASSWORD@9TH	9th Class (State & CBSE)
SREEHARI R	COORDINATOR	sreehari@mentorbee.com	SREEHARIPASSWORD@10TH	10th Class (State & CBSE)
PAVIN PAULSON	COORDINATOR	pavin@mentorbee.com	PAVINPASSWORD@11SCI	11th Science (State & CBSE)
AKASH	COORDINATOR	akash@mentorbee.com	AKASHPASSWORD@11COM	11th Commerce (State & CBSE)
MURALI	COORDINATOR	murali@mentorbee.com	MURALIPASSWORD@12TH	12th Science & 12th Commerce

B. Mentor & Staff Authentication Matrix (`/mentor/login` or `/`)

Mentors log in by typing their name, selecting their class, and entering an authorized staff verification passcode.

ASSIGNED CLASS	UNIVERSAL MASTER PASSCODE	CLASS-SPECIFIC PASSCODES	DEFAULT VIEW FILTER
8th Class	`AGENTBEE0809`	`MENTOR8TH` / `BEE8TH`	All 8th State & CBSE Batches
9th Class	`AGENTBEE0809`	`MENTOR9TH` / `BEE9TH`	All 9th State & CBSE Batches
10th Class	`AGENTBEE0809`	`MENTOR10TH` / `BEE10TH`	All 10th State & CBSE Batches
11th Science	`AGENTBEE0809`	`MENTOR11SCI` / `BEE11SCI`	11th Science Batches
11th Commerce	`AGENTBEE0809`	`MENTOR11COM` / `BEE11COM`	11th Commerce Batches
12th Science	`AGENTBEE0809`	`MENTOR12SCI` / `BEE12SCI`	12th Science Batches
12th Commerce	`AGENTBEE0809`	`MENTOR12COM` / `BEE12COM`	12th Commerce Batches
All Classes (Admin Mentor)	`AGENTBEE0809`	`MENTORALL` / `BEEALL`	All Grades & Streams

🛠️ 3. Admin & Coordinator Portal (`/admin`)

The Administrative Console allows Super Admins and Class Coordinators to manage live sessions, batch catalogs, and audit logs.

3.1 Top Navigation & Identity Status

- **Logo & Home link**: Quickly identify the platform and branding.
- **User Badge**: Displays logged-in coordinator name with a green status indicator and their authorized class scope (e.g. `COORD: 10TH` or `SUPER ADMIN`).
- **Mentor Portal Shortcut (`↗`)**: Opens the live mentor dashboard in a new tab for rapid testing.
- **Logout Button**: Destroys session token and returns securely to the login portal.

3.2 Tab 1: Sessions Management

The primary command center for scheduling and broadcasting Zoom sessions.

How to Create a Class Session (Step-by-Step)

1. **Open Create Modal**: Click the golden **+ Create Session** button in the top right.
2. **Smart Zoom Paste Auto-Fill (Recommended)**:
   Paste the raw WhatsApp text received from the teacher into the **Quick Zoom Paste Auto-Fill** textarea.
   Click **Auto Parse Link & Credentials**. The system instantly extracts the Zoom URL, Meeting ID, and Passcode and fills them into their respective fields.
3. **Select Class Stream & Batch**:
   Select the **Assigned Class Stream** (e.g. *10th Class*).
   Optionally filter by **Syllabus Filter** (*CBSE* or *STATE*).
   Select the exact target **Batch** from the filtered dropdown list.
4. **Enter Class Topic & Schedule**:
   Type the **Class Topic / Subject** (e.g. *Mathematics - Quadratic Equations*).
   Set the **Date** (defaults to today) and **Start Time** (IST).
5. **Publish & Broadcast**:
   Click **Save & Broadcast Session**.
   The session is committed to the database, formatted messages are pre-computed, and an instant WebSocket broadcast triggers updates across all mentor dashboards.

🖍️ Editing Sessions

Click **Edit** on any session row. You can modify the topic, link, time, or passcode on the fly. All changes are logged in the version change history and instantly updated for mentors.

🗑️ Deleting Sessions

Click **Delete** on any session row. A confirmation prompt prevents accidental deletion. Once confirmed, the session is removed permanently and cleared from mentor views.

3.3 Tab 2: Batches Management

Maintains the institution's catalog of all active academic batches.

Key Functions in Batches Tab

- **Batch Inventory**: Displays Batch ID, Assigned Class Category, Full Batch Name, Syllabus (CBSE or STATE), and Active Status.
- **Class Scope Isolation**: Coordinators only view batches matching their assigned grades. Super Admin views all 106+ batches.
- **Create New Batch**: Click **+ Create Batch**, enter the name (e.g. *10TH STATE EVNG KL BATCH*). The system automatically infers syllabus and grade categories from the naming pattern.
- **Edit Batch**: Rename or update batch metadata whenever class structures evolve.

3.4 Tab 3: Security & Access Audit Trail (Super Admin Exclusive)

A tamper-evident, real-time activity log tracking mentor interactions across all classes.

LOGGED EVENT	ACTION BADGE	DESCRIPTION & COMPLIANCE VALUE
Mentor Login	🔑 STAFF LOGIN	Records staff member name, class scope, timestamp, and IP address upon entering the system.
Copy Broadcast Message	✓ COPIED MESSAGE	Logs every instance of a mentor copying the WhatsApp broadcast message for a specific batch.
Copy Direct Zoom Link	✓ COPIED LINK	Tracks direct URL copies for audit verification.
Launch Zoom Meeting	⚡ LAUNCHED ZOOM	Logs when a mentor clicks "Join Zoom" to enter the live room directly.

> 🔍 **Refreshing Audit Logs**
>
> Click **↻ Refresh Logs** to pull the latest 100 access logs in real time. Super Admins can verify which staff member dispatched the link to student groups and at what exact second.

📱 4. Mentor & Staff Portal (`/` and `/mentor/login`)

The Mentor Portal is designed for maximum speed and simplicity on mobile devices (smartphones, tablets) and desktops.

4.1 Mobile & Desktop Login Workflow

1. Navigate to the homepage `https://your-domain/` or `/mentor/login`.
2. Enter your **Full Staff Name** (e.g., *ANJALI*, *RAHUL*).
3. Select your **Assigned Class** from the dropdown (e.g., *10TH*, *11TH SCI*).
4. Enter the authorized **Staff Verification Passcode** (`AGENTBEE0809` or class passcode).
5. Tap **Access Dashboard**. Your session is securely authenticated for 24 hours.

4.2 Dashboard Layout & Navigation Controls

1. Primary Syllabus Switcher

Top-level toggle between CBSE and STATE syllabuses. Includes real-time pill badges showing the exact number of active classes in each syllabus.

2. Time Sub-Tabs

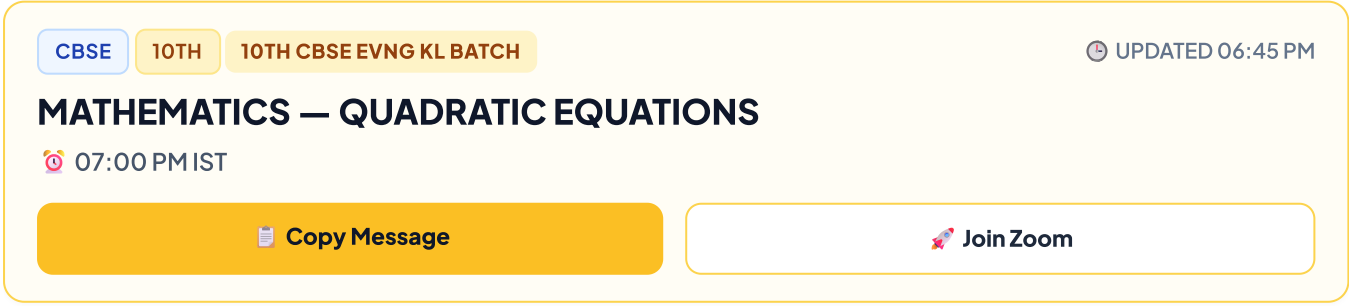

Toggle between **Today's Classes** (active classes for the current date) and **Upcoming** (classes scheduled for future dates).

3. Grade & Scope Filter Chips

- **Class-Scoped Mentors**: Displays an active chip locked to the mentor's assigned class (e.g. *Class 10TH*) showing all State and CBSE batches.
- **Multi-Class Mentors**: Interactive filter bar allowing seamless switching between *All Classes*, *8th*, *9th*, *10th*, *11th Sci*, *11th Com*, *12th Sci*, and *12th Com*.

4.3 Class Session Card & 1-Click Actions

Each class session is displayed in a dedicated, high-contrast visual card:

📋 Copy Message Button

1-tap copies the pre-formatted WhatsApp message ready to paste directly into student WhatsApp groups. The button turns green (✓ COPIED!) with an animated toast notification.

🚀 Join Zoom Button

Launches the Zoom application or browser directly into the live meeting room with meeting ID and passcode automatically applied.

5. Standard WhatsApp Broadcast Template

When mentors click **"Copy Message"**, the system generates a clean, professional, standardized message formatted specifically for WhatsApp readability:

```
*MENTORBEE EDUVERSE*
*10TH CBSE EVNG KL BATCH*
--------------------------------------
*TOPIC : MATHEMATICS - QUADRATIC EQUATIONS*
*DATE : AUGUST 21, 2026*
*TIME : 07:00 PM IST*

*Join Zoom Meeting*
https://zoom.us/j/99887766554?pwd=samplepassword

*Meeting ID: 998 8776 6554*
*Passcode: 123456*
```

✨ Key Formatting Features

- **Clear Institution & Batch Header**: High-visibility asterisks for WhatsApp bold text formatting.
- **Separation Bar**: Clean divider line separating metadata from connection details.
- **Explicit IST Time Tag**: Prevents timezone ambiguity for students across regions.
- **Direct Clickable URL**: Zoom deep link with embedded token for 1-tap entry.
- **Explicit ID & Passcode**: Fallback credentials for manual Zoom room entry.

6. Operational Troubleshooting & FAQs

Q1: Passcode rejected during Mentor Login?

Solution: Ensure you are using the Master Staff Passcode `AGENTBEE0809` or the class-specific passcode matching your selected class. Passcodes are case-insensitive.

Q2: No batches appear in the "Select Batch" dropdown when creating a session?

Solution: Check the **Syllabus Filter** in the creation modal. If it is set to "CBSE" and you selected an 11th Commerce class with only State batches, switch the filter to "All Syllabuses".

Q3: Zoom Auto-Extractor fails to parse invite text?

Solution: Verify that the pasted WhatsApp message contains a valid `https://zoom.us/j/...` URL. If the message only has Meeting ID and Passcode, enter the values manually into the corresponding fields.

Q4: How does real-time synchronization work if a link changes last minute?

Solution: When a coordinator edits a session, the backend broadcasts a WebSocket message and mentor devices automatically reload data within milliseconds. In addition, the mentor portal runs an automatic background poll every 4 seconds as a fail-safe.
