Mentor Dashboard Operations Guide

LIVE CLASS LINK ACCESS, SEARCH, FILTERING & SECURITY PROTOCOL

OFFICIAL STAFF SOP

🔒 **Mandatory Staff Accountability & Real-Time Security Notice**

Every login, Zoom launch, link copy, and broadcast message generation is **actively tracked and recorded** in the Super Admin Audit Trail with your **Full Name, Timestamp, and IP Address**. Treat all meeting links with strict confidentiality.

1. Portal Access & Universal Authentication

Staff members access the live session repository by navigating to `/mentor/login` or the platform home page (`/`).

LOGIN FIELD	REQUIRED INPUT	SECURITY & OPERATIONAL PURPOSE
Your Full Name	`Staff Official Name`	**Mandatory.** Identifies the exact mentor responsible for sharing links. Submissions with empty names are blocked by the system.
Username	`mentor`	Common staff authentication username.
Password	`agentBEE`	Common mentor access password (case-sensitive). Not displayed on screen for protection against over-the-shoulder viewing.
Access Scope	**Universal (All Classes)**	Unlocks all 106+ batches across both State & CBSE syllabuses without separate logins.

2. How to Search for Classes Instantly

The dashboard includes a high-performance **Real-Time Search Bar** located immediately beneath the primary syllabus switcher:

- **Batch Search:** Type any part of the batch name (e.g., `10TH CBSE`, `KL BATCH`, `EVNG`, `STATE ONLINE`).
- **Subject & Topic Search:** Type `Physics`, `Mathematics`, `Quadratic Equations`, `Organic Chemistry`, etc.
- **Time Search:** Type `07:00`, `PM`, `08:30 AM` to quickly locate classes starting at a specific time.
- **Clearing Search:** Tap the red **×** button on the right edge of the input to instantly reset the filter and display all classes.

3. How to Filter Classes by Syllabus, Grade & Date

To navigate 100+ batches effortlessly, use the two-tier hierarchical filter system:

Tier 1: CBSE vs. STATE vs. EXAM KILLER Switcher

Use the prominent three-way switcher at the top of the interface:

- **CBSE Tab (Blue Dot):** Filters the view to all CBSE curriculum classes with a live badge showing total count.
- **STATE Tab (Green Dot):** Filters the view to all Kerala State Board curriculum classes with live count.
- ⚡ **EXAM KILLER Tab (Rose Dot):** Dedicated section for high-intensity Exam Killer crash courses, model exams, and question discussion sessions, kept strictly separate from regular daily classes.

Tier 2: Class / Grade Chips (Inside Syllabus)

Within your selected syllabus, tap any of the grade chips to view standard-specific sessions:

FILTER CHIP	STANDARD SCOPE	TARGET STREAMS
All Classes	Grades 8 through 12	Comprehensive view of all active sessions
8th	8th Standard	All 8th State & CBSE batches
9th	9th Standard	All 9th State & CBSE batches
10th	10th Standard	All 10th State & CBSE batches (Morning & Evening)
11th Sci	11th Science	Physics, Chemistry, Mathematics, Biology
11th Com	11th Commerce	Accountancy, Economics, Business Studies
12th Sci	12th Science	Physics, Chemistry, Mathematics, Biology
12th Com	12th Commerce	Accountancy, Economics, Business Studies

4. How to Verify the Latest Changed ID & Timestamps

Online schedules often experience last-minute link updates, studio swaps, or emergency teacher replacements. The platform provides real-time verification indicators so mentors never broadcast outdated links.

Verification Rules for Mentors:

1. **Inspect the `UPDATED [Time]` Badge:** Every card indicates the exact time the link or topic was last edited by a coordinator (e.g., `UPDATED 06:48 PM`).
2. **Live WebSocket Synchronization:** If a coordinator changes a Zoom link while you have the dashboard open, your screen updates automatically within milliseconds.
3. **4-Second Fallback Polling:** The application automatically queries the server every 4 seconds to guarantee zero lag, even on unstable mobile connections.
4. **Pre-Broadcast Golden Rule:** If coordinators announce a link update in staff channels, locate the card, check that the `UPDATED` badge shows the recent time, and tap **Copy Message** to fetch the fresh credentials.

5. 1-Click WhatsApp Broadcast Message Generation

When you tap **`Copy Message`**, the system formats the standardized WhatsApp text and copies it to your clipboard with a green **`✓ Copied!`** visual confirmation.

```
*MENTORBEE EDUVERSE*
*10TH CBSE EVNG KL BATCH*
-----------------------------------
*TOPIC : MATHEMATICS - QUADRATIC EQUATIONS*
*DATE : AUGUST 21, 2026*
*TIME : 07:00 PM IST*

*Join Zoom Meeting*
https://zoom.us/j/99887766554?pwd=samplepassword

*Meeting ID: 998 8776 6554*
*Passcode: 123456*
```

6. 🚨 CRITICAL SECURITY PROTOCOL: ID MIS-SHARING & AUDIT MONITORING

> ⚠️ **ZERO-TOLERANCE SECURITY & DISCIPLINARY POLICY**
>
> **EVERY SINGLE LINK COPY, MESSAGE GENERATION, AND ZOOM ACCESS IS MONITORED.**
>
> The Super Admin Console maintains an unalterable audit log displaying:
>
> - **Mentor Full Name** (entered at login)
> - **Batch Name & Session Topic** accessed
> - **Exact Action:** `✓ Copied Message`, `✓ Copied Link`, or `⚡ Launched Zoom`
> - **Exact Timestamp** (to the second) & **IP Address**

Strict Rules on Link Distribution:

- **NEVER Cross-Post Links Between Batches:** Sending an 8th State link into an 8th CBSE broadcast group causes severe disruption, confusion, and unauthorized student entry. Always verify the Batch Header before sending.
- **NEVER Share Unofficial or Personal Links:** Only broadcast links generated through this official portal.
- **DO NOT Disclose Staff Passwords:** The password `agentBEE` is strictly confidential to MentorBee staff and must never be shared with students or parents.
- **Full Accountability:** When link mis-sharing occurs, Super Admin cross-references the broadcast time against the Security Audit Log to identify the responsible mentor. Negligence will result in immediate administrative action.

7. Administrative & Technical Support

For urgent scheduling issues, link corrections, or coordinator escalations:

- **Super Administrator:** `admin@mentorbee.com`
- **Class Coordinators:** Contact your grade coordinator (Abin, Abhijith, Sreehari, Pavin, Akash, Murali).
